GOVERNMENT OF UGANDA

UGANDA AVIATION SAFETY POLICY

All levels of management within the State aviation authorities in Uganda are accountable for the delivery of the highest level of safety performance and where applicable will achieve safety through:

1. Strategies, policies, regulations, and systems that build upon safety management principles consistent with the Standards, Recommended Practices and Procedures of ICAO for the safe operation and growth of the civil aviation industry.
2. A positive safety culture supported by a strong reporting and continuous learning culture and an enforcement policy that builds trust within the aviation community.
3. Collaboration and open communication with the industry and international partners to address safety matters.
4. Allocation of sufficient resources within relevant State authorities that participate in SSP implementation and maintenance and through proper training and skilling of their personnel.
5. Safety oversight activities, supported by analyses and prioritized resource allocation based on safety risks including the oversight of SMS implementation within aviation organizations.
6. Risk-based and data-driven approach in the regulation and management of aviation safety, leveraging on safety data and information from different sources.
7. Safety promotion and education of the aviation industry on safety management concepts and principles.
8. Protection of safety data and safety information, related sources where information provided is self-incriminating to facilitate a continuous flow and exchange of safety data and information between service providers and the State Authorities.
9. Monitoring the realistic implementation of our SSP against safety performance indicators and safety targets which are clearly identified.
10. An Enforcement Policy that ensures that no information derived from any safety data collection and processing system established under the SSP or the SMS will be used as the basis for enforcement action, except in the case of gross negligence or willful violation
11. Communication, publication and periodic review of this Safety Policy
