

## AIR NAVIGATION SERVICES SAFETY OBJECTIVES

The safety objectives of Air Navigation Services as set by the Directorate management and outlined in the SMS implementation plan are:

1. To implement and maintain a Safety Management System that is in line with ICAO SMS framework and meets applicable Uganda Civil Aviation regulatory safety requirements.
2. To enhance safety culture and responsibility among staff through the provision of safety training, effective safety communication and staff involvement in safety activities.
3. To effectively manage safety occurrences through reporting, investigation and implementation of safety recommendations.
4. To identify, analyse, assess and effectively control hazards in ANS operations.
5. To ensure timely and effective implementation of -Corrective Action Plans (CAP).
